ISO/NP 18393-1	Thermal insulation products -- Determination of ageing by settlement -- Part 1: Blown loose-fill insulation for ventilated attics, humidity and temperature cycling
ISO/NP 18393-2	Thermal insulation products -- Determination of ageing by settlement -- Part 2: Blown loose fill and injected insulation for cavity walls and timber and steel framed walls, simulating vibration
ISO/NP 18393-3	Thermal insulation products -- Determination of ageing by settlement -- Part 3: Determination of settlement for blown or injected loose fill insulation for closed cavities, simulating humidity and temperature cycling
ISO/NP 18393-4	Thermal insulation products -- Determination of ageing by settlement -- Part 4: Blown loose-fill insulation for ventilated attics, vibration
ISO/NP 12642-3	Graphic technology -- Input data for characterization of 4-colour process printing -- Part 3: Part 3: Extended data set
ISO/NP 14002-2	Environmental management systems -- Guidelines for using ISO 14001 to address environmental aspects and conditions within an environmental topic area -- Part 2: Water
ISO/NP TS 23690	Nanotechnologies -- Multiwall carbon nanotubes -- Determination of amorphous carbon content by thermogravimetric analysis
ISO/NP TS 21602	Fire safety engineering -- Estimating the reduction in movement speed based on visibility and irritant species concentration
ISO/NP 20976-2	Microbiology of the food chain -- Requirements and guidelines for conducting challenge tests of food and feed products -- Part 2: Challenge tests to study inactivation potential and kinetic parameters
ISO/NP 24664	Refrigerating systems and heat pumps -- Pressure relief devices and their associated piping -- Method for calculation
ISO/NP 24673	Concentrated date juice-Specifications and test methods
ISO/NP 80601-2-88	Medical electrical equipment -- Part 2-88: Part 2-??: Particular requirements for basic safety and essential performance of equipment for infant cardiorespiratory monitors
